

# HEPCO Model 3000-2

## Basic Preform Machine

### Single-Stroke Pneumatic Operation with Easily Interchangeable Dies

Model 3000-2  
Shown with 3212-2 Die Option  
Dies Sold Separately

Single Machine to Trim and/or Form All These Components and More:

Capacitors  
Transistors  
Flat Packs  
Headers

Hall Cells  
Resistors  
Crystals  
Connectors

Triacs  
LEDs  
DIPs  
SIPs

- Die Changes in Under 1 Minute / **Versatile**
- Steel Base for Extremely Long Life / **Durable**
- Large Variety of Dies Available
- Slash Labor Costs Over Hand Tool Use
- Precision Dies to Protect Components During Form
- Virtually No Operator Training / **Simple to Use**
- Maintenance Free / **Accurate**
- Special Dies to Customer Specifications
- Rapid Payback / **Efficient:**
- Immediate Delivery

**Quality and Durability Proven by Years of Production Use**

#### Specifications:

**Power:** 50-90 PSI Compressed Air  
**Volume:** 0.1 CFM Max  
**Size:** 8" Wide x 8" High x 15" Long  
**Weight:** 25 Pounds

**Average Production Rate:** 2-Leaded = ~1,250 per Hour  
3-Leaded = ~900 per Hour
